

**Precision Forming Technology**  
HUB BRAKE NUMBER ONE – CVT APPLICATION

**ENSURES CIRCULARITY (TOOTH SHAPE) AND FLATNESS (BOTTOM) FOR STRONGER MATERIALS**

Tooth Shape is molded in two steps. The accuracy of both inner and outer teeth is required  
Produced by our unique tooth forming technology. Eliminating the necessity for machining

Dimension – Diameter 126 X Height 60

Plate Material – SAPH590

Application - CVT
