

New Product Development

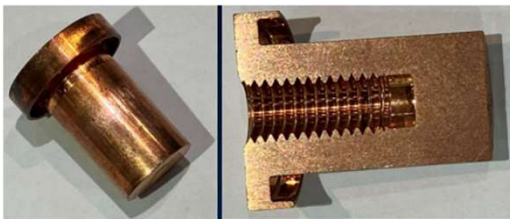

Cold-Formed EV Hardware

Camera Housing

Features:

- Housing for vehicle camera
- Material: Aluminum
- Minimizing/Eliminating Machining

Relay Terminal

Features:

- For use in terminals for power (high voltage) relay
- Material: Copper
- Screw rolling/tapping vs machining

Aluminum Terminal

Features:

- For use in Battery Cells
- Material: Aluminum
- Unique forming process to eliminate dents
- Capable of forming various shapes

Flat Terminal / Bus Bar

Features:

- For use in Male Terminal for power supply
- Material: Copper
- Unique forming process developed for flat shape and hole
- Near-net-shape reduces machining

Advantages:

Increased Productivity

Competitive Pricing

Quality Stability
